

MONOPOLE INC.
Manufacturer of
U.S. SPECIALTY COATINGS

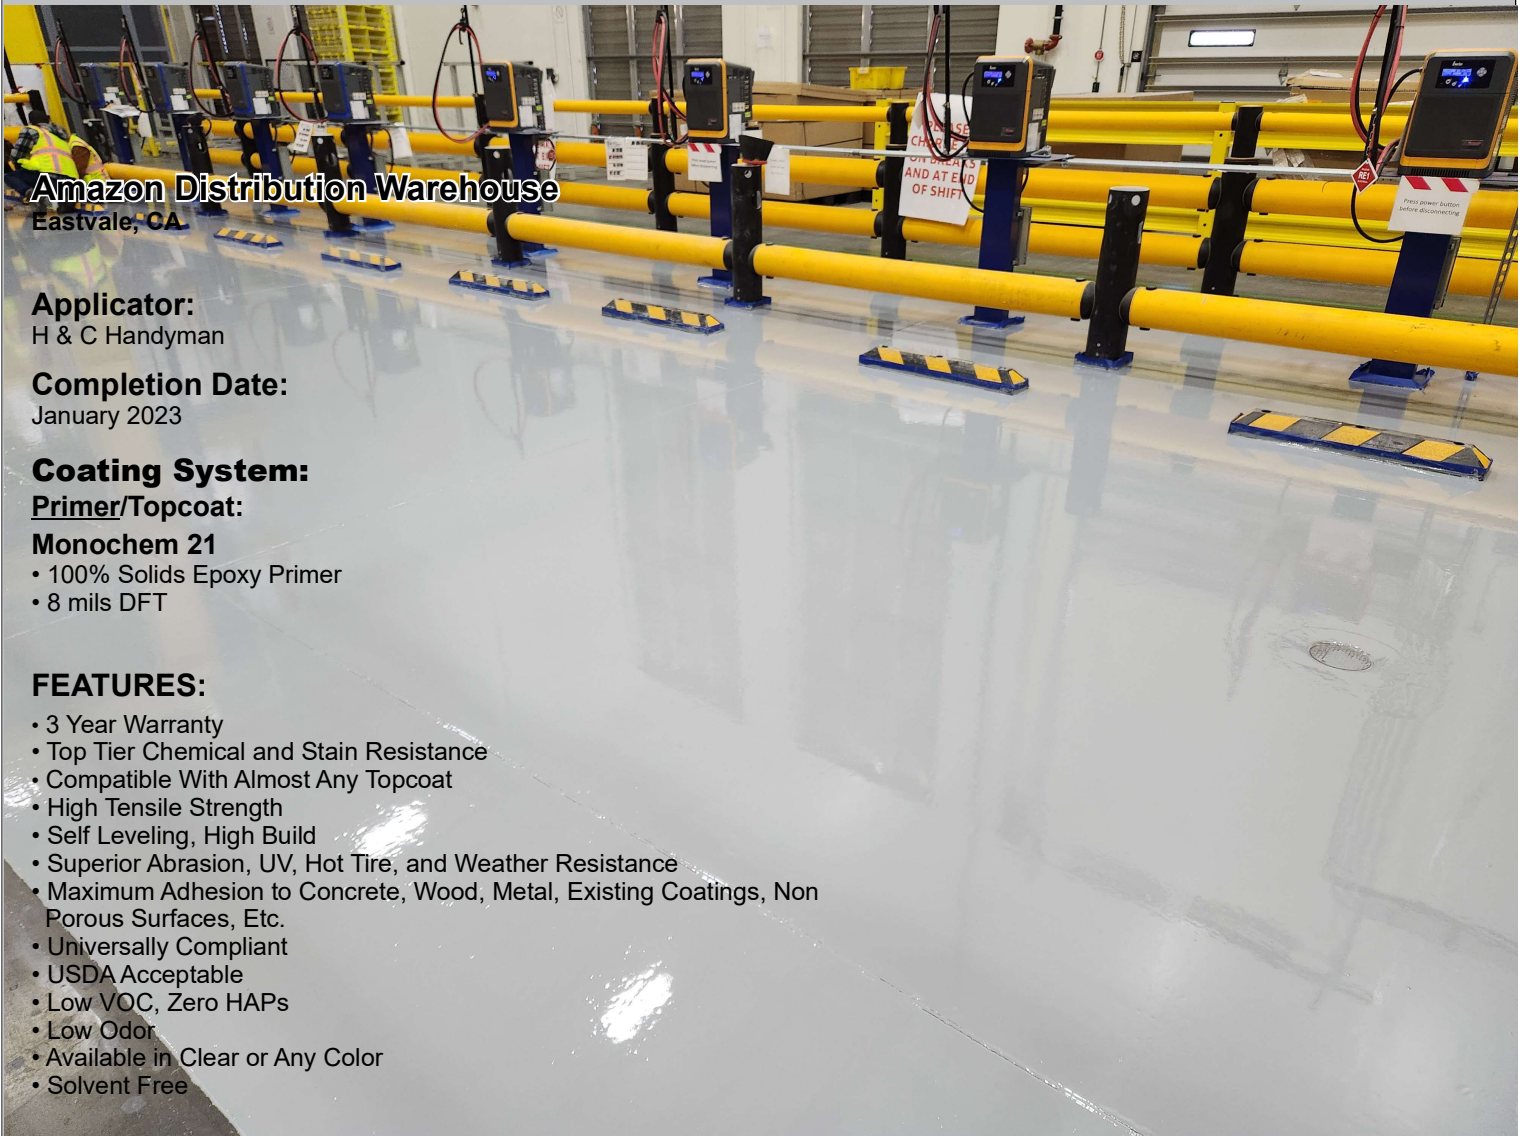

FEATURED PROJECT

MONOCHEM 21

MONOCHEM 21 is a 2-component, 100% solids, high-build, liquid applied Polyamine, Cyclo-Aliphatic Epoxy.

MONOCHEM 21 can be applied on concrete, prepared metal (non ferrous), wood, glass, reinforced plastics, polyurethane elastomeric coatings, epoxies, acrylics, glazed surfaces, unknown coatings and many other non-porous substrates maximizing the adhesion between the substrate and the top coat.

Amazon Distribution Warehouse
Eastvale, CA

Applicator:
H & C Handyman

Completion Date:
January 2023

Coating System:

Primer/Topcoat:

Monochem 21

- 100% Solids Epoxy Primer
- 8 mils DFT

FEATURES:

- 3 Year Warranty
- Top Tier Chemical and Stain Resistance
- Compatible With Almost Any Topcoat
- High Tensile Strength
- Self Leveling, High Build
- Superior Abrasion, UV, Hot Tire, and Weather Resistance
- Maximum Adhesion to Concrete, Wood, Metal, Existing Coatings, Non Porous Surfaces, Etc.
- Universally Compliant
- USDA Acceptable
- Low VOC, Zero HAPs
- Low Odor
- Available in Clear or Any Color
- Solvent Free
